

## DUN'S TRADE REVIEW

Revival of Certain Lines of Industry Brings Hope.

### EXPORTS OF WHEAT ARE HEAVY.

Short Crops Abroad Cause Good Demand at Fair Prices—Cotton Has Weakened After Its Suden Rise—Prints Cloth Are Somewhat Lower—Failures for the Quarter Ending Sept. 30 Make a Bad Showing by Comparison.

New York, Oct. 5.—R. G. Dun & Co.'s Weekly Review of Trade says: The complete report of failures for the quarter which ended with Wednesday shows an increase which would be surprising if political causes were not obvious. In number 6½ per cent. less than in the panic quarter of 1893, failures for the quarter show liabilities 11.16 per cent. less, amounting to \$73,285,349, against \$87,869,682 in the previous half year. Manufacturing liabilities were \$32,479,796, or 37 per cent. greater than in the same quarter of 1893, while trading were \$28,738,236, and "other commercial" were \$12,067,236. To this must be added \$11,712,960, liabilities in fifty bank failures, making exclusive of railways nearly \$85,000,000 for a single quarter. Comparisons are given showing that in only six quarters in twenty-two years have defaulted liabilities been as large, that the ratio to solvent business has been \$6.06 per \$1,000, against \$2.34 for the same quarter last year; that the average per firm in business has been \$63.57, against \$26.92 last year; that the proportion of increase has been greatest in the western states, both in amount and in average liabilities per failure, and much larger in manufacturing than in trading.

**Removed by Influx of Gold.**  
Part, but clearly not all, of the causes have been removed by the influx of gold, and depression is still shown by clearing house payments, 22.1 per cent. less than last year for the week, and 32.2 per cent. less than in 1892, when another presidential election was near.

The continued advance in wheat may prove of the utmost importance. It has been 1.12 cents for the week, and 10 cents since Sept. 2, and is mainly due to short crops abroad and in foreign demand. Atlantic exports for the quarter ending with September, flour included, were 23,195,214 bushels, against 14,320,020 bushels last year. The output of wheat separately nearly doubled in spite of higher prices. No lack of visible domestic supply causes or supports the advance and western receipts for the quarter were 57,742,941 bushels, against 43,790,499 bushels last year. Cotton has weakened after its sudden rise, because the demand for goods has relaxed into hand-to-mouth buying, and print cloths are lower at 2.56 cents. Some injury has been done by recent storms, but the market seems not now in a humor to magnify them. There are unmistakably encouraging signs in the great industries, although the actual gain in working force employed, or new orders received is slight. But the strong demand for materials, for pig-iron, hides, and wool, as for cotton, does not diminish, and has already gone far enough to stiffen prices. In wool quotations are scarcely stronger, but represent actual sales more nearly than in past weeks, when buyers with cash almost made their own prices.

**Sales in Five Weeks.**  
Sales in five weeks have been 33,169,200 pounds, of which only 4,679,000 were foreign, against 34,719,170 last year, of which 15,552,479 were foreign, and 37,288,400 in 1892, of which 11,090,600 were foreign, and when it is remembered that, in spite of the recent starting of some mills, not more than 30 per cent. of the total capacity can be producing the preponderance of purchases to anticipate future wants is apparent. Orders for wools do not gain, and several kinds of dress goods, flannel suitings, and fancy worsteds, are selling a shade lower. Buying of Bessemer pig again lifts Pittsburgh quotations to \$11.75 without any general gain in the demand for finished products, and steel bars for the first time are sold at 1 cent, against 1.2 cents asked by the association for iron bars. Plates and rails are in less demand, but there is heavy buying of sheets at the west. Confidence that reviving business must bring a greater demand than all the works can meet, induces the various associations to make no change in their prices. The minor metals are not strong, lake copper at 10½ cents, tin at 12.90, and lead at about 2.8 cents. Merchants and manufacturers are waiting, but there are not wanting signs that many have confidence to invest and push forward as though the dawn of prosperity were close at hand. The quarter that has passed has been most trying, but things would be worse than they are but for the general belief that better times are near.

### TERRIBLE BUTCHERY.

Man and Five Children Found Murdered in Arkansas.

Little Rock, Oct. 5.—Great excitement prevails at Devall's Bluff over the discovery of what is believed to be the bloodiest tragedy in the history of Prairie county. Bud Chaffin and his five children are believed to have been murdered and suspicion points to Mrs. Chaffin and John King, her paramour, as the murderers.

Chaffin with his wife and five children lived on White river, between Des Arc and Devall's Bluff. John King, a hired man, lived with the family and is said to have alienated the Chaffin woman's affections from her husband. Neither King or any of the Chaffins have been seen since Sept. 21. On that date King was seen driving away in a wagon in company with Mrs. Chaffin. As they did not return and nothing was seen of the other members of the family the neighbors began an investigation. Then the house in which the Chaffins had lived was opened, blood was found spattered all over the floor and there were evidences of a terrible butchery having been committed. No bodies were found. The theory of the officers is that the bodies were thrown into the river. Every effort is being made to locate King and Mrs. Chaffin.

## INCIDENT AT

Worsted Man and Wife Meet After Their Son's Remains.

New York, Oct. 5.—The funeral of Manager Walter L. Sinn of the Montauk theatre was held at Plymouth church Friday, Rev. Lyman Abbott officiating. The church was crowded to suffocation. Only on one other occasion has it ever seen such a gathering, and that was at the funeral of Henry Ward Beecher. Camille d'Arville sang "Ave Marie," and nearly broke down. The body of the church was occupied by two commanderies of Knights Templar, two lodges of Free Masons, the Brooklyn lodge of Elks and the Theatrical Mechanics' association. It was a gathering such as has probably never before assembled to pay tribute to the memory of a member of the theatrical profession. All the prominent members of the profession in New York and Brooklyn were present. At the conclusion of the services a pretty and pathetic incident occurred. Colonel Sinn took the arm of his wife, from whom he has been divorced a number of years, and leaned over the casket. She looked at the face of her son and then up to that of her husband. There seemed to be an understanding in the look. He placed his arm in hers and led her down the aisle, following the casket. There was scarcely a dry eye in the large church. Everyone noticed the incident and with a common impulse it occurred to all alike that it meant a reconciliation.

The remains of the dead manager were deposited in the vault at Greenwood and will be later removed to Baltimore for interment.

### TYNAN RELEASED.

The Dynamite Suspect Now on His Way to America.  
New York, Oct. 5.—Dispatches have been received by friends of P. J. P. Tynan stating that he has been released from prison at Boulogne-sur-Mer, France, and is now on his way to this country. Mrs. Gertrude Kearney Saturday received the following cablegram from her husband, John Kearney, at Rotterdam: "Am starting for New York today." It is expected that Edward J. Tynan, now in jail in London, and Haines, the other Irish suspect, under arrest at Rotterdam, will be liberated on Monday.

### Worsted Mills Destroyed.

Camden, N. J., Oct. 5.—The worsted mills of Ackroyd & Scull, and Shelmier & Boyer, covering nearly half a block at Point and Pearl streets, this city, were destroyed by fire Saturday morning. The flames originating from spontaneous combustion in the wool picker room of Ackroyd & Scull's mill. The two mills gave employment to about three hundred persons, and the flames spread so rapidly that there were some narrow escapes, but nobody was hurt. Ackroyd & Scull's loss is estimated at \$55,000. Shelmier & Boyer loss about \$35,000.

### Death of Dan Wren.

Chicago, Oct. 5.—Daniel J. Wren died Friday night at his home, 2019 Indiana avenue. He was born in Tralee, County Kerry, Ireland, in 1856. When 9 years old he came to Chicago. As a first ward politician he came into public notice, and in 1884 he was elected county commissioner by the Republicans of his ward. The board of which he was a member was charged with "boodling" and Wren was sentenced to two years at Joliet. After serving his sentence he went into the carriage business in Wabash avenue.

### Frightful Fall to Death.

Morris, Ill., Oct. 5.—While superintending the raising of a Democratic flag pole Friday afternoon, Harry T. Baldwin was knocked off the cross-trees by the topmast crushing upon him. He fell to the ground, a distance of ninety feet, and was instantly killed. His death was the result of carelessness on the part of the men on the ground, who were managing the cable by which the pole was being put in place. The man has relatives in Chicago, but their address is unknown.

### Satellit's Successor Arrives.

New York, Oct. 5.—Archbishop Martinelli, successor to Cardinal Satelliti as papal representative in the United States, was on board the steamer Campani, which reached her dock Saturday. He is a short, dark man. When the health officer boarded the steamer, Dr. Martinelli was standing in the companionway watching everything with keen interest. He said he had had a rough and disagreeable trip, but that he was a fairly good sailor, and had not been confined to his room.

### Attempted Train Wrecking.

Baraboo, Wis., Oct. 5.—An attempt was made Friday night to wreck passenger train No. 5 on the Chicago and Northwestern railroad, near Devil's Lake. Four bandits were discovered obstructing the track by Tom Patterson, who shot one of them. They returned the fire and Patterson was shot through the leg and hat. The wreckers escaped. A sheriff and posse are in pursuit. An attempt was made to wreck the same train a week ago.

### Defaulter Springs a Surprise.

Troy, N. Y., Oct. 5.—George H. Morrison, the defaulting county treasurer, sprang a surprise upon the county officials Saturday by making a general assignment to Charles P. Kimball of all his property. He had made a previous assignment to his bondsmen of certain property and securities, and was not supposed to have anything more to assign. He is still in jail in default of \$100,000 bail.

### Trying to Save Cottell's Life.

Cleveland, Oct. 5.—A special from Akron, O., says: In the circuit court here Saturday the application for a new trial for Romulus Cottell, sentenced to hang Nov. 6 for the Stone family murder last March, was overruled. The case will be taken to the supreme court and an effort made to have the death sentence commuted.

### Vanderbilt Is Better.

New York, Oct. 5.—Cornelius Vanderbilt was out driving with his wife at Newport Friday afternoon. He is now attending to business, and is apparently in very good health, though his right arm appears to be a trifle weak.

### Russell Sails for Home.

New York, Oct. 5.—Baron Russell of Killowen, lord chief justice of Great Britain, sailed for home Saturday with Lady Russell and their daughter.

## WILLIAM MORRIS DIES

Famous London Poet and Socialist Passes Away.

### BRIEF SKETCH OF HIS CAREER.

A Man Much Beloved by the Working Mass and Always Ready to Relieve a Case of Distress—Supposed Suicide of an American Woman in Vienna—Thrilling Experience on the River Nile—Other Foreign Notes of Interest.

London, Oct. 5.—William Morris, the designer, poet and author, who of late years has proclaimed himself a socialist, died Saturday morning. He was born in 1834.

William Morris was born near London in the year 1834. He was educated at Marlborough school and Exeter college.

lege, Oxford. In 1858 he brought out his first book, "The Defense of Guenevere," which, though much appreciated by some, was "caviare" to the general public.

### Sold Artistic Wall Papers.

In 1863 he started a shop for the sale of artistic wall papers—mostly designs by himself or his friend, Walter Crane—tiles and other decorations. The idea "caught on" and no member of the "upper ten" would rest content until at least one room in his or her house had been "decorated by Morris."

He in the meantime wrote the epic poem, "The Life and Death of Jason," and other works. He resided chiefly at the Mall, Hammersmith. He was much beloved by the working classes and was ever ready to assist any deserving case of distress. He was, indeed, a proclaimed socialist of a pronounced type and deeply interested in the labor question. He was one of the few wealthy socialists, for he was the son of a rich merchant and himself added to his estate.

### MYSTERY OF A SUICIDE.

Mrs. Constance McElroy, an American Lady, Takes Poison at Vienna.

London, Oct. 5.—A dispatch from Vienna to the Standard reports the death in the hospital there of Mrs. Constance McElroy. Mrs. McElroy had applied to the United States consul, Max Judd, for assistance last Monday, representing that her husband had not sent her money and that she was penniless. Mrs. Judd, the wife of the consul, gave her a bedroom, where she was found the next morning unconscious. It was supposed the cause was a dose of morphine, taken with suicidal intent. Mr. Judd has received a telegram from McElroy at Washington, saying that a draft for his wife was on the way, but no reply has been received from Washington to a subsequent cablegram announcing that the patient was dying. Papers which the deceased lady left show that the statements that she was in a destitute condition were not true. Consul Judd will send papers to Washington and will pay the funeral expenses provisionally.

### Will Not Visit America.

St. Petersburg, Oct. 5.—Prince Khilkoff, the minister of communications, has, it is stated, abandoned his projected visit to the United States, during which he was to make a further study of the working of American railroads. The prince some years ago secured employment on a railroad in the United States, beginning as an assistant stoker, in order to study American railroad methods. He started on a tour of inspection of the trans-Siberian railroad and from Siberia was to have gone to Japan and thence to San Francisco, New York, London and Paris.

### Thrilling Experience.

London, Oct. 5.—The Chronicle's correspondent with the Nile expedition telegraphs that he and the artist, Sepplings Wright, were captured in the Hannet cataract. They drifted, clinging to their wreckage, through the pools and rapids of the river for twenty miles, when they gained the western bank of the Nile, opposite Ferozi. They were nearly naked, and the natives treated them badly, refusing to give them food. They spent the night in the desert, and were finally rescued by Drago Bey.

### Rich Men Arrested.

Constantinople, Oct. 5.—Every indication points to a renunciation by the Turkish government of a conciliatory policy toward the Armenians. Expulsions among the lower orders continue, although on a reduced scale, and arrests extend now to bankers and members of the wealthy classes.

### Persimmons a Good Winner.

London, Oct. 5.—By winning the Jockey club stakes of \$50,000 at Newmarket on Thursday last, the Prince of Wales' colt Persimmon has brought its total winnings up to \$114,380, apart from the considerable amounts which his royal highness is understood to have won in bets.

### To Buy Out Mohammedans.

Berlin, Oct. 5.—The Kölnische Zeitung asserts that the Germans propose to appeal to the Christians of Europe and America to subscribe £10,000,000 (\$50,000,000) in order to buy out all the Mohammedan land owners in the Isl- and of Crete.

### Shot His Little Brother.

Newark, O., Oct. 5.—Andrew Andrews, a deaf mute, 8 years old, while playing with a shotgun, shot his 3-year-old brother at Irville. As Mrs. Andrews entered the room the boy had the body in his arms.

## STRIKE GETTING MORE SERIOUS.

Another Section of the Canadian Pacific Left Without Telegraphs.

Ottawa, Ont., Oct. 5.—The Canadian Pacific telegraphic strike is getting more serious. The men on the Montreal and Ottawa section of the road who have so far been at work joined the strike last night and left their keys.

Montreal, Oct. 3.—The wires of the Canadian Pacific railway have been tampered with in two places where they were tied together with piano wire. A reward of \$1,000 has been offered for evidence to convict any one of tampering with the wires. The Dominion government has shown its interest in the strike of the Canadian Pacific telegraphers by asking the company for a statement of its cause, to which Vice President Shaughnessy has replied by wire to Ottawa, saying there is no question involved except whether the company shall ignore its rules and deal directly with its employees, without regard to the executive officers.

Assistant General Manager Tait has wired to all points that the train dispatchers and operators who had stopped work have now had two days in which to consider the magnitude of their blunder, and that if they desired to resume the places they had voluntarily given up they must do so before 5 p. m. yesterday or their places would be filled by new men. The message also stated that many men on the Ontario and Quebec division and on the main line east of North Bay have already gone back to work, and that the company can fill every existing vacancy with good men without delay.

### THINKS THE THIEF GOT OFF EASY.

President Refuses to Pardon a Post Office Embezzler.

Washington, Oct. 3.—In denying the application made for the pardon of Irving A. Pulze, sentenced in northern Illinois to one year and five months imprisonment for embezzling postal and money order funds while postmaster at Glen Ellyn, Ill., the president says in part: "The embezzlement of government funds by postmasters is so common that I do not feel that I ought to interfere with the light sentence imposed by the court. I believe that any deliberate embezzlement of public money by a postmaster is lightly punished by one year's imprisonment."

### Illumination at Burlington, Ia.

Burlington, Oct. 2.—Last night the city was brilliantly illuminated and a fine display of fireworks was given with an illuminated river carnival. A banquet followed at Hotel Delano, in honor of Vice President Stevenson, Governor Drake and other distinguished guests. There was no regular programme of speeches, but many bright talks were made by those present, that of the vice president being especially complimentary to Iowa and her progress.

### Baltimore Takes the Second Game.

Baltimore, Oct. 5.—"Brother Joe" Corbett was the star in Saturday's Temple cup game, and under his skillful generalship the Orioles took the second game of the series with quite as much ease as they did the first. The score was: Cleveland, 2; Baltimore, 7.

### Well-Known Lumberman Dead.

Muscatine, Ia., Oct. 3.—Richard Nusser, one of the foremost and best known lumbermen in the Mississippi valley, died at his home here yesterday of heart failure. He was 73 years old.

## ONE MAN'S SUFFERING.

The Trials and Tribulations of a Battle Creek Citizen—How He Comes to Tell This Story.

(From the Battle Creek Moon.)

Among the moulders at the works of the Michigan foundry company can be found Mr. Amos Maynard; he has lived in Battle Creek for over ten years, is honored and respected by all who know him; such is the man who makes this statement, he says: "I have had kidney trouble for years, and it has made my life miserable. The heavy lifting, necessary in my business, made me worse. I have been compelled to lie in bed in a helpless condition for as long as nine days at a time; the greatest pain was from my back, which sometimes felt as though a bayonet was being run through me in the region of my kidneys; many citizens of Battle Creek knew how bad I was. I could not move without the greatest caution, for as soon as I attempted to stoop over, bend to one side, or even turn in bed, the pain was simply unbearable. I wore porous plaster constantly for the little temporary relief they brought me. Whenever I caught the slightest cold it went straight to my kidneys and made me worse. I was advised to try Doan's Kidney Pills, and got some. I have taken in all four boxes of them, and I now feel as active as ever. A few months ago I would have ridiculed the idea of being cured so quickly, and being able to work as I am now. All the long-standing pains are gone, and the former traces of kidney disorders found in my urine have disappeared. I have recommended Doan's Kidney Pills to many friends who were troubled as I was, and in every case I have learned they proved as beneficial as with me. Doan's Kidney Pills would be cheap to me at almost any price."

For sale by all dealers, price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.
